Python, Django, FastAPI, Celery, Redis, Strapi CMS

Machine Learning
TensorFlow, PyTorch, Pandas, OpenCV

AI & Cloud
OpenAI API, RAG pipelines, Google Cloud Platform

Databases
PostgreSQL, MySQL, MongoDB

Extras
SEO, Docker

Languages

Spanish:
Native

English:
Intermediate level B1

About me

Passionate about software engineering, I consider myself a curious, proactive person who is always learning. Since discovering my vocation at the age of 17, I've realized that my true passion is building and bringing innovative digital products to life. My goal is to add value, take on new challenges, and contribute my expertise to the success of every project I participate in.

Work Experience

Full Stack Developer
DedomenaAI | Feb 2026 – Present

- Built the company's main landing page using Next.js and a Strapi headless CMS, with all content and copy fully data-driven — no static content in the frontend.
- Design and maintain both frontend and backend solutions for the company's products.

Full Stack Developer
SkinSageProAI | Feb 2026 – Present

- Sole developer on the project, owning the entire stack: frontend, backend, database, deployments, maintenance, and product architecture.
- Built AI-powered features using OpenAI models and RAG (Retrieval-Augmented Generation) pipelines.
- Stack: Next.js, FastAPI, PostgreSQL, data pipelines, and Google Cloud Platform for deployment and infrastructure.

Principal Frontend Engineer
DixBase | June 2024 – March 2026

- Leadership of the company's frontend development.
- Design and implementation of user interfaces (UI).
- Performance optimization and user experience (UX) improvements.
- Development of client-side architecture and application logic.
- Ensuring accessibility and consistency across all projects.

Full-Stack Developer
Z17 Joint Venture Company | January 2025 – August 2026

- Full-stack development of applications and systems.
- Creation of custom solutions for clients.
- Implementation of both frontend and backend components.
- Management of the complete software development lifecycle.
- Planning, deployment, and maintenance of projects.

Academic Information

University of Informatics Sciences (UCI) | 2021 – 2025
Computer Science Engineering
